BACKEND DEVELOPER (M/F)

You're interested in developing a web application platform and tailored digital products? You want to work with experienced backend and frontend engineers, a diverse creative team and our incredibly amazing office-robot?

KALBECK

Send your application to office@kalbeck.com and let's get in touch.

WHAT WE ARE LOOKING FOR

- Experience in C# (.NET Core)
- Development of distributed web applications & single page applications
- Experience with test-driven development and distributed versioning (e.g. Git)
- Close collaboration with DevOps, Software Architects, Frontend Engineers and Web Developers in order to create enterprise web applications
- Usage and configuration of Linux-based server systems
- Proficiency in English, both written and spoken

WHAT WE OFFER

- Cutting edge web technologies
- In-house product development
- An interdisciplinary team
- Agile development in small teams
- Focus on large, long-term projects in the fields of fintech, IoT and online platforms

WE ARE

- ... based in 1090 Vienna
- ... a bunch of diverse individuals that want to create awesome digital (and sometimes non-digital) stuff
- ... offering a salary from € 42.000.- gross per year + overpayment dependent on professional and personal qualifications
- ... looking forward to meeting you!
